

Math 431 – Spring 2019

Homework 4, Part 2

Due date: NEVER

Instructions

Your first exam is on February 27 in the evening. Material from the week of February 18 through February 22 is certainly going to be on the exam, so you should work on some problems covering these topics. However, I do not want to add to the stress of studying by enforcing an additional homework due date.

My compromise is to provide the problems and solutions I would have assigned had this been an ordinary week. You must know this material for the exam, and I will leave it to your judgment how much practice is required in this time frame.

Problems

Solve the following problems from the textbook.

- **Chapter 2:** 21, 23, 25, 28bc, 47, 57, 67, 74
